

CARDBOARD SPACE JAW

Extend your reach with this cool space jaw. It could be used to pick up space junk or remove smelly socks from your spaceship!

You'll need:

- ★ Cardboard
- ★ Felt tip pens or food colouring
- ★ 10 split pins

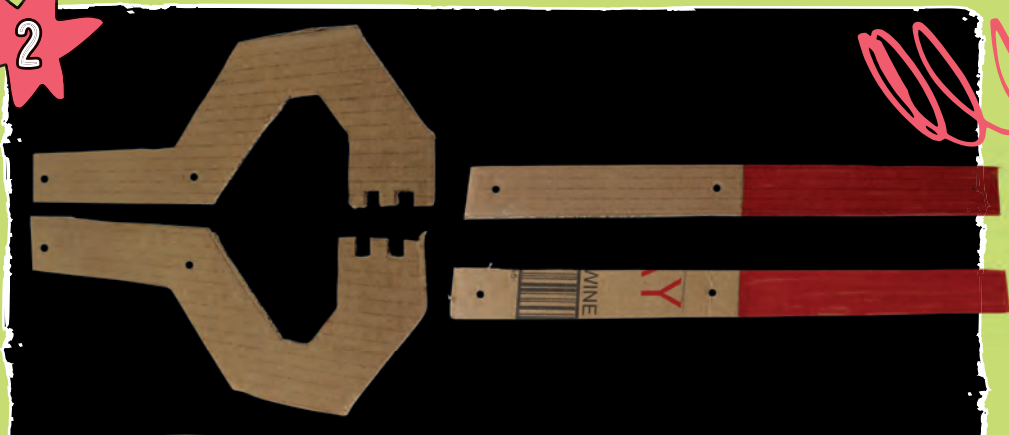

1

Take a section of corrugated cardboard. Mark and cut out four identical levers. Make holes at each end and in the centre of each one.

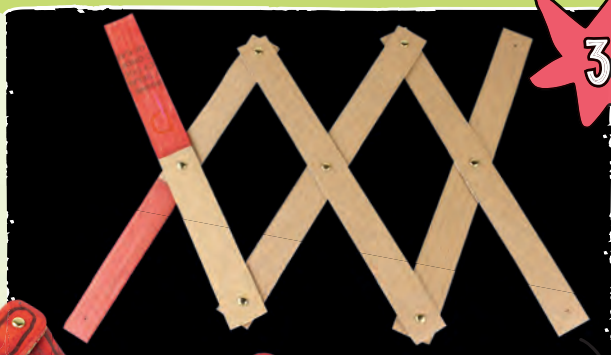

2

Mark and cut out a pair of clamps. Make holes in the centre and at one end (not the end with the clamp). Cut out a pair of handles and put holes at the end and in the centre.

Attach your levers and handles together with split pins as shown.

3

4

Attach your clamps with split pins and decorate with felt pens or food colouring.
